

## REASONS GREENPRO IS A BETTER TRAILER

**1**

### ATTITUDE

It all starts with the right attitude. Our seasoned engineer and design team wakes up every day with the goal of making our trailers better. Bravo trailers work harder, look better and will outlast other brands.

**2**

### BEEFY TUBE FRAMES

All Bravo GreenPro trailers have tube main frames that are stronger, straighter and tow better. A combination of Bravo's tube main frame, walls, top rail and front end leads to the strongest trailer on the market today.

**3**

### TUBE REAR ENDS

GreenPro trailers feature all tube rear end structures. This is a key reason our trailers can stand up to the daily abuse of carrying landscape equipment. This, in addition to our tube frames leads to true commercial quality.

**4**

### HD SIDEWALL/WHEEL BOX

We've learned landscapers need to hang tools, shelving, and equipment on their interior sidewalls. All GreenPro trailers have beefed up sidewall and wheel box structure to carry the load.

**5**

### REINFORCED A-FRAMES

Reinforced A-frames combined with the vertical tubes in all of our front ends make Bravo trailers the strongest in the business. Reinforced A-frames equal stronger, safer and longer lasting trailers.

**6**

### BEEFY SIDE DOORS

All GreenPro trailers have the Bravo built HD aluminum framed side door. They feature bar and slam locks with nylon protection, strap hinges and aluminum liners.

**7**

### INTERIOR PROTECTION

GreenPro interiors are designed for the abuse of hauling landscape equipment. All trailers feature womanized floors and 12" kickplate. Steel rear corner and wheel box protection will stand up to years of abuse.

**8**

### PROTECTED WIRING

Bravo Trailers' quality in-frame wiring offers much more protection from road debris and weather. Bravo's protected wiring is the best in the industry. We will never leave you stranded.

**9**

### ROCK GUARD COATING

All A-Frames, rear cross members and wheel boxes are finished with Bravo's Rock Guard coating for durability. Painted areas are primed and painted with the chassis undercoated.

**10**

### BEEFY RAMP DOOR

All our HD ramp doors and flaps are built for the rigors of daily Landscaper use. They feature additional hinges welded to tube rear cross-members for long life.

## FIVE MORE STANDARD GREENPRO FEATURES FOR A COMMERCIAL QUALITY PRODUCT!

**2X**  
THE LIFE

**1**

### TWICE THE LIFE

With GreenPro's beefy frame and commercial quality features you can expect twice the life of other recreational based enclosed trailers. Not only will they last longer they look better too making a great rolling billboard for your business!

**2**

### THEY TOW BETTER

Our years of experience and thousands of miles towing trailers have allowed us to tweak our designs for better and safer towing. You can rest assured your GreenPro trailer will tow great because we have tested them already!

**3**

### FIELD TESTED

Our trailers work! We field test every model and option to make sure they won't let you down. The unbeatable combination of Bravo's years of experience and testing make these the best enclosed work trailers on the market.

**4**

### OPTIONS GALORE

Listening to our customers leads us to better options that work! Our options are engineered in, not added on. Working with our design team, you can create the perfect trailer to make your business more efficient and successful.

**5**

### CUSTOMER SERVICE

No other trailer manufacturer will address your needs as quickly or fairly as Bravo. We have the parts and expertise to keep you on the road. We believe that thrilled customers are our greatest asset!
